

Fronteras uses Google Groups to manage the APC member email list.

To join the email list simply send an email to this address:

fronteras-community+subscribe@googlegroups.com

You will receive an email asking you to verify that you wish to be on the list. You will need to follow the instructions in the email you receive in order to complete the process.

To unsubscribe from the list you may send an email to this address:

fronteras-community+unsubscribe@googlegroups.com

Again, to complete the unsubscribe process you will need to respond to an email you receive verifying that you really wish to unsubscribe.

When you send a subscribe or unsubscribe request to the email addresses noted above, you do not need to put anything in the subject line or body of the email; you can if you wish, but it is not required. The only requirements are that you send to the addresses listed above, and that the email message comes from the email account that you want added to the email list.
