

Keep your child's school health information up-to-date

It's hard to find time to make sure the school is seeing health information for your children. CareDox makes it easy to improve your family's health information and share it with your schools.

FAQs for parents and guardians

Do you have an invite code from your children's school?

KNOW UP HERE

The best health ally for your child

- Know what happens with your child's health at school, when it happens.**
- Approved to chat with your child's school nurse.**
- Stay in sync with your child's health at school.**

You may have seen some emails coming your way from CareDox.

CareDox is the new MSBSD Electronic Health Record Platform. This is a secure system that is compliant with federal HIPAA (Health Insurance Portability and Accountability Act) and FERPA (Family Education Rights and Privacy Act) regulations.

- If you have not already done so, please go into your iParent account click on the CareDox tab and complete your student's enrollment by providing the Health registration information required by the school district.
- If you do not have an iParent account, please go onto the district website under the parent tab and get set up for your iParent account.
- You can also complete the Health registration information by clicking on the link provided to you in your email from CareDox which includes an invite code from the district.
- If you are a continuing student the information from our previous MSBSD electronic Health Record Platform (schoolmax) was already uploaded in to your students continuing MSBSD health information account so you will just need to review the information and make changes as needed.
