

Tennis Team Volunteer Hours 2022

Community Service hours should be earned through volunteering your time and talents to a community non-profit organization needing your assistance. The objectives here are several:

1. As members of the school tennis team, you are direct recipients of the community service of others who have volunteered their time to create and support high school tennis. In this instance, you are 'paying it back.'
2. In this same vein, as has been done for you, your service is providing others with opportunities that might otherwise be unavailable. Here, you're 'paying it forward.'
3. Our team mission statement is Every. Point. Counts. By volunteering in the larger community, you are demonstrating respect for others, developing character, and responsibility. You are more than just a high school tennis player, you are a member of the MSBSD and a representative of Colony High School.

Community Service hours should be completed within the season and are due by September 30, 2022.

Please have your planned community service pre approved with one of your coaches.
