

# Chromebook Login

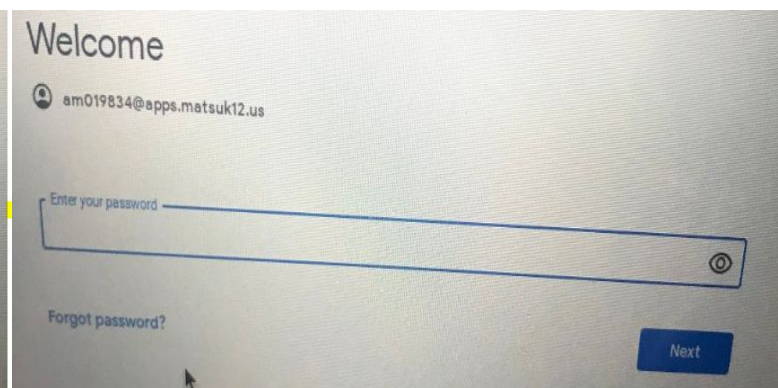

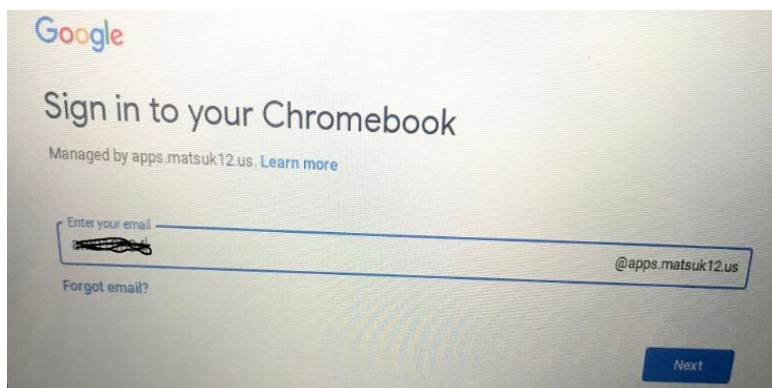

## Step One, connect to WIFI

Turn on Chromebook, when you open the device it should automatically come on but if it does not the power button is on the right side. It will need to be connected to the internet before anyone can log in. You will see a notification on the screen that says "Network not available" Select your network then enter your password and press connect

## Step Two, login

Once you are connected it will automatically go to a login page. Enter your username. District username starts with your first and last initial followed by numbers, for example, "ag019844". Then enter the password K-2 the password is *alaska*  
3-5 students set up their own password at the beginning of the year.

## You now have access to the computer!

If you are struggling to login or do not know your username and password, please reach out to your student's teacher via email. Staff email addresses can be found on the PPE website.
